The Best way to Paint, Flag and Profit... Guaranteed!

# FLAGSHOOTER

## FLAGSHOOTER®

The Flagshooter is a mechanical tool that was developed to bring safety and efficiency to the damage prevention industry by combining the tasks of flagging and painting into one handheld device. The Flagshooter has simplified this task by allowing an operator to spray paint at the squeeze of the trigger and to install a flag with compression of the handle once the Flagshooter

bottom is in contact with the ground. The efficiency and ergonomic benefits of the Flagshooter are magnified in hard or frozen ground scenarios. The Flagshooter works with industry leading inverted nozzle marking paint.

The Flagshooter is constructed of non corrosive materials including nylon, aluminum and stainless steel. All parts are made and assembled in the U.S.A.

### FLAGSHOOTER®

PART# J316-2.0 WITH CAN

#### SPECIFICATIONS

Height: 31 1/2"      Width: 3 1/4"  
Body Length: 9"      Handle Length: 5 1/2"  
Weight (Empty): 3.4 lb

### FLAGSHOOTER®

PART# J316-2.0C CANLESS

#### SPECIFICATIONS

Height: 31 1/2"      Width: 2 1/2"  
Body Length: 5 1/4"      Handle Length: 5 1/2"  
Weight (Empty): 2.8 lb

## FLAGSHOOTER FLAGS

Flagshooter flags are proprietary to the Flagshooter tool because they are collated into clips of 25 flags and have a patented bend at the bottom that allows the Flagshooter tool to engage them for insertion into the ground.

### MATERIALS OF CONSTRUCTION

The flag staff is 0.066 in. diameter and is made with bright basic steel wire. The flag banner is a long lasting low density polyethylene that is digitally printed with a U.V. cured ink and attached to the stem without glue.

### PRODUCT APPLICATION

**Typical Applications:** utility locating, construction sites, landscape sites, golf courses and much more.

#### Application:

Flagshooter  
or Spray Wand

#### Substrates:

Pavement Gravel

Soil Grass

## SPRAYSMART™ PROPELLANT-FREE MARKING PAINT DELIVERY SYSTEM

Marking Paint Has Been Revolutionized! **The Rust-Oleum SpraySmart™ System** is a first of its kind, patent-pending, propellant-free delivery system for spraying marking paint.

### FEATURES & BENEFITS

- ✓ Sprays in any direction, on any substrate and in any weather condition
- ✓ Strategically designed to fully empty each paint pouch—no waste
- ✓ System fits in the Flagshooter and existing marking paint wands
- ✓ Lightweight design. Device and pouch weigh the same as a full 20 oz. can
- ✓ Propellant-free paint pouches are more convenient to ship and take less space
- ✓ Each pouch marks more linear feet than leading competitor
- ✓ Lithium ion battery sprays up to 48 paint pouches when fully charged

"SpraySmart is really easy to use. I like that I can see how much paint I have left and that the pouches take up less space in my truck. The paint sprayed really well and was very visible. I was really impressed."

— Jeff F., Utility Locator

No Wasted Paint  
Simple Disposal

## PROPELLANT-FREE MARKING PAINT DELIVERY SYSTEM

### QUICK FACTS

FILL WEIGHT	10.5 fl. oz.

Leaves

Grass

Sand

**WHAT OUR CLIENTS ARE SAYING**

"We have been using Flagshooter over the last year and absolutely love it. It is very easy to use, makes flagging the yard go much faster, and no sore back afterwards. I would recommend this to anyone that is on the "fence" about getting one."

- PW - Hidden Pet Fence Company

"Everything is working the way it should. I'm impressed with how well it works. In fact, this is going to make my life a lot easier. I'm also impressed with your customer service. I don't think it could have gone any smoother or faster."

- SL - Utility Company

"Between the Water Dept. and the Gas/Electricity Dept. we have 10 Flagshooters. We have been using them for about 3 years now. The employees who use them on a daily basis have nothing but good things to say about them. They save a lot of time when flagging large areas and they really save on their backs."

- DD - Public Utility Company

"I appreciate your quick turnaround and great service. Not many people sell a product, and then stand behind it, like they say they will. I will continue to tell people about your products and outstanding service after sale."

- RJ - Natural Gas Pipeline Company

"I just wanted to drop a note to say how much I love the Flagshooter! It has made such a difference in my life. After having back surgery, it was very difficult to bend over to put the flag in the ground. Getting the Flagshooter not only allowed me to continue to work pain-free, but also much faster. Thanks for the great product."

- GA - Wireless Telecommunications Company

"When chasing a line we barely have to stop when painting and placing a flag. You advertise a 40% improvement in the speed of locates, for us and the soil types here in the San Joaquin Valley, it is likely more than 40%. Thank you for a great product and exceptional customer service."

- TB - Subsurface Utility Contractor

"As with the rest of the country, it has been a hot and dry summer. The ground here in Wyoming is harder than ever, and our Flagshooter is pounding in the flags just fine. No complaints. Very good product."

- MW - Public Utility Company

"This product is awesome. It has saved me so much time on locating and having to go back several times. The flags are still there which makes my job easier and helps on the back also."

- JB - Public Utility Company
